

Ahmad Wajid

Anaheim, CA | P: +1 7142401753 | ahmadwajid@ucla.edu | ahmadwajid.com

EDUCATION

University of California Los Angeles
Bachelors in Computer Science

Los Angeles, CA
Expected Graduation: May 2028

Relevant Coursework: Object Oriented Program Design, Programming Methods; Data Structures; Computer Organization, Probability & Statistics

EXPERIENCE

Anaheim Innovative Mentoring Experience (Kindset)

Anaheim, CA

- Directed and mentored a team of new interns on the Web Development Team.
- Optimized the organization's online presence by implementing responsive design principles
- Applied Search Engine Optimization (SEO) strategies to boost website visibility and traffic
- Gained hands-on experience in social media management, leveraging analytics to enhance digital outreach

Anaheim Innovative Mentoring Experience (iLab)

Anaheim, CA

- Designed and optimized a responsive website for the We Rise Together Challenge.
- Created and managed a database to organize and display competition entries
- Assumed key responsibilities, collaborating effectively with senior team members.

PROJECTS

Sheet Storage

Jan 2024

- Developed a system leveraging Google Sheets and Google Drive to provide dynamic data storage capabilities.
- Implemented error handling and file upload features for seamless user experience.
- Designed the system for easy integration with other applications.
- Capable of handling large volumes of requests while maintaining high performance

Geniuz Manager

May 2024

- Developed a custom bot to manage subscription-based roles on Discord, addressing a gap in native Discord functionality.
- Implemented a JSON-based storage system to efficiently track user subscriptions across multiple servers.
- Enabled administrators to automate role assignments and removals, simplifying subscription management with large servers.
- Designed the system to support scalability and integration within multiple servers with one instance of the program.

Non-Profit Website

August 2024

- Built a responsive Template with Built-in News & Job Search Functionality
- Streamlined content management by integrating CSV for news updates and JSON for job postings.
- Ensured cross-platform compatibility and a user-friendly interface.
- Integrated SheetStorage to store user data, such as job applications and email sign-ups for updates, leveraging Google Sheets for dynamic, secure data management.

ACTIVITIES

ACM AI UCLA

Los Angeles, CA

Student Developer

Sep 2024 – Present

- Participate in AI development projects within ACM at UCLA, applying machine learning techniques like reinforcement learning to real-world applications.
- Collaborate with peers to build AI programs, focusing on algorithm optimization and practical problem-solving.
- Engage in hands-on AI workshops, enhancing skills in data analysis, model training, and machine learning frameworks.

ADDITIONAL

Technical Skills: Python, Javascript, C++, HTML, CSS, React, Flask, Google App Scripts

Languages: Fluent in English, Pashto, and Persian
